

# FPI 2300

## Mailshots made easy

Time saving and cost effective

Simple and easy to operate

Fold, insert and seal envelopes

Intelligent operation

The FPI 2300 series can process up to 2,200 envelopes per hour and allows for a number of configurations, depending on your business requirements. This folder inserter enables you to manage all marketing and other communications in-house; you can include inserts to your mailings and create a professional image with all of your marketing material.

### OPTICAL MARK RECOGNITION READY

Each automatic document station can be set to feed several sheets per envelope. Feed, fold and insert up to three sheets per job, or up to five sheets when using OMR.

### LARGE CAPACITY FLEXIBILITY

Each A4 feeder station can hold 325 pages. The tandem function lets one feeder continue working uninterrupted when the other feeder is empty to reduce reloading time when processing large mailings.
